

**SUSTAINABLE
MARITIME INTERIORS**

The Sustainable Maritime Interiors Declaration

ENVIRONMENTAL ADVOCACY

- 1** Champion responsible maritime interior architecture and design as a pathway to a sustainable future and contribute to giving our community an effective and united voice that drives meaningful action.
- 2** Be curious, seek wisdom and listen intently while advocating for positive change and encouraging others to follow through sharing knowledge and experiences.
- 3** Stimulate design-led innovation across the value chain and nurture partnerships that can accelerate sustainability gains through responsible consumption and production.

ENVIRONMENTAL ACTION

- 4** Approach every project with a healthy planet mindset, design considerably to protect natural resources and encourage all stakeholders to support better environmental choices.
- 5** Embrace and pursue circular design principles for longevity and flexibility, optimised material use, energy efficiency, waste reduction, designing for easy maintenance, repair and recycling.
- 6** Prioritise products and materials with strong, transparent and audited environmental performance data, especially those from suppliers that can demonstrate continuous sustainability improvement.

ENVIRONMENTAL FUTURE

- 7** Be bold and persistent in the pursuit of increasingly more sustainable interiors and be supportive of those who can help to advance these goals through transformative results.
